

A. Krüss Optronic Opens The Virtual Lab

A. Krüss Optronic recently opened its latest web service, the Virtual Lab. The Virtual Lab is a digital twin to the Applications Laboratory located at Krüss Optronic headquarters located in Hamburg, Germany.

The Virtual Lab allows everyone the opportunity to learn more about the wide range of Krüss Optronic laboratory products. In the Virtual Lab, you can experience all the Krüss products—the color, size, texture and properties. The lab is available 24 hours a day and seven days a week. This is an excellent alternative to visiting a trade show and will give the user a great first look at the complete product portfolio. Click on the link to visit the virtual lab now!
